Order Form For Chaps and Arm Cuffs

WHAT SIZE SHOULD YOU ORDER?

To order a pair of Leather Legs for ultimate, year round protection...we must know your calf size:

Over the clothes and footwear you will usually be wearing, with a soft sewing-type tape measure, measure around both of your calf's at the biggest part of your calf (many times one calf is larger than the other). Choose the size from the drop down box below the style you like, that corresponds to your largest calf measurement. Because everyone's shape and size are different - and because some like it snug and some like it loose, the sizes we display for our products are only guidelines. Although most of our customers get the right fit the very first time, we simply can't guarantee the size you select will fit.

NOTE: Should your measurement be on the half size (example: you measure 14 1/2" and that would be a small, but this would be a tight small.) so you may want to order the next size up, a medium.

The height of our chaps are, 19" tall for X-Small and Small - 19 1/2" for Medium and Large and 19 3/4" for XL and XXL. This is measured from the top of foot (where the chap rests on the top of your footwear) to the top of the chap (the highest point of the chap at the knee). For larger legs (XXXL), order the XXL and a 1" extender and simply zip the extender onto the Leather Legs zipper in the back.

Feel free to call or email us at leatherlegs1@gmail.com with any questions.
